

SoftBox

This collection can be described in three words: softness, precision and modularity. The corner element enables the user to arrange SoftBox sets in any chosen configuration to harmonise them with the interior design. Seats seem to be supported by subtle 'ribbons' – aluminium or wooden legs look delicate but they provide a stable base.

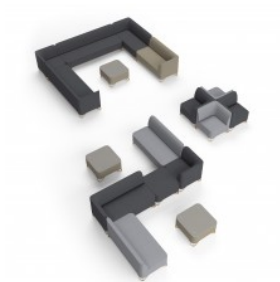

The collection consists of: corner element, single and double pouffes, armchair, two and three seater sofa (without, with one or two armrests).
